Dear Sirs

**Re: Partnership Testimonial**

MW Integrated Systems Limited has worked with Vietec for more than 3 years and has been instrumental in the completion of a number of high profile projects in the public and private sector.

MWIS Ltd has provided services that cover a broad spectrum, electrical installations, fibre optic cabling, Cat5e and Cat6 data cabling and we have also found that they have highly effective skills when implementing audio visual installations.

Mark Wildman and his associates at MWIS have a can-do and businesslike approach, linked to a long history of working in this sector that gives Vietec a really useful ally that we can always rely on to get things done.
